SUMMARY

Creative and performance-driven **Front-End and Mobile App Developer** with hands-on experience building **scalable web applications using React.js** and **cross-platform mobile applications using Flutter**. Proven ability to translate product ideas and designs into clean, responsive, and user-focused solutions. Passionate about clean code, performance optimization, and continuous improvement. A strong team player with excellent collaboration, debugging, and design interpretation skills.

EXPERIENCE

Finosell (Remote)

Frontend & Mobile App Developer
2024 – Present

- Built and maintained **[dashboard.finosell.com](#)**, a React-based web application enabling CEOs and business owners to create teams, manage approval workflows, and monitor business operations

- Implemented **role-based access control**, approval flows, and dynamic dashboards to support scalable enterprise use cases

- **Designed and built Finosell Approval**, a Flutter mobile application published on the **Google Play Store**, enabling users to manage approval requests efficiently on the go

- **Designed and built MediSwift**, a Flutter-based logistics application used by riders to deliver hospital and medical equipment, featuring task assignment, delivery tracking, and

status updates

- **Built [SmartLearning](#)**, a Next.js-based education platform connecting tutors with students and allowing parents to monitor their children's academic progress, attendance, and learning outcomes

- Integrated **REST APIs**, implemented secure authentication flows, and optimized application performance for production environments

---

Freelance Projects (Remote)

Flutter Developer
January 2023 – Present

- Built and deployed multiple **Flutter Android applications**, including an e-commerce UI and a personal expense tracker

- Implemented **Firebase Authentication and Firestore** for secure login and cloud data storage

- Designed adaptive and responsive user interfaces optimized for multiple screen sizes and devices

- Debugged performance issues and integrated animations to enhance overall user experience

---

Pivelar – Ikeja

Frontend Developer
September 2023 – February 2024

- Developed and optimized frontend features using **React.js and Chakra UI**, improving UI responsiveness and performance

- Built reusable, modular components to support scalable application growth

- Participated in design handoff reviews and client-facing product demonstrations

- Supported junior developers through code reviews and technical troubleshooting

---

InBrandPR – Ogba

Frontend Developer (Intern)
March 2022 – December 2022

- Built dashboards and landing pages using **React.js and Firebase**

- Implemented real-time data synchronization with **Firestore**

- Translated **Figma designs into pixel-perfect, responsive components**

- Actively participated in agile sprints, daily standups, and team reviews

---

EDUCATION

Speedway Polytechnic, Ojodu Berger
Ordinary National Diploma (OND)
April 2022 – Present

Nigeria Institute of Information Technology (NIIT)
Diploma in Core Java & Web Development
April 2022 – October 2023

TECHNICAL SKILLS

Frontend: React.js, Nexttjs, TypeScript, JavaScript, HTML, CSS, Chakra UI, Tailwind CSS, Material UI
Mobile: Flutter, Dart
Backend / Tools: Firebase, REST APIs, Node.js (Basic)
Workflow & Others: Git, GitHub, Agile, Clean Code, Figma, Data Structures
Development Tools: VS Code, Android Studio

KEY STRENGTHS

- Creative Problem Solving

- Attention to Detail

- Fast Learner & Adaptable

- Strong Team Collaboration

- Time Management & Task Prioritization

KEY ACHIEVEMENTS

React Task Manager Application

- Reduced unnecessary re-renders by **40%** using memoization and lazy loading

- Built a scalable SPA using React, Chakra UI, and Firebase

Flutter E-Commerce Application

- Developed a responsive shopping app with product listings, filters, and cart functionality

- Integrated real-time updates using Firebase for smooth user experience

Personal Portfolio Website

- Designed and deployed a portfolio showcasing projects and skills

- Achieved **300+ monthly views**, increasing online visibility

---

PROJECTS

React Task Manager

- Task management SPA built with React, Chakra UI, Firebase, and custom hooks

Flutter E-Commerce App

- Mobile shopping app featuring product browsing, search, and cart functionality

Personal Portfolio Website

- Portfolio website with project showcase, contact form, and resume download

---

TRAINING & COURSES

- Frontend Development – freeCodeCamp

- Flutter App Development Bootcamp – Udemy (Angela Yu)

- React.js Crash Course – Traversy Media (YouTube)

- JavaScript Algorithms & Data Structures – freeCodeCamp *(In Progress)*

LANGUAGES

- English – Native

- Yoruba – Native
