

OLUWADAMISI DAMILOLA

Frontend & Mobile App Developer — React / Next.js / TypeScript / Flutter

Lagos, Nigeria • damilolaoluwadamisi@gmail.com • github.com/Ade1fe • [LinkedIn](#)

PROFILE

Frontend and mobile developer based in Lagos, building responsive web interfaces and cross-platform Flutter apps for education, fintech, and healthcare products. Comfortable owning a feature end to end — from API integration to polished, production-ready UI — across React, Next.js, TypeScript, and Flutter.

EXPERIENCE

Mobile & Web Developer — **Alterdoss**, Remote

2024 – Present

Working across mobile and web applications, building scalable interfaces and shipping production-ready features using React, Next.js, and Flutter.

- Built and maintained cross-platform mobile and web applications
- Developed reusable UI systems for faster product delivery
- Integrated APIs and optimized frontend performance
- Collaborated closely with product and design teams

Frontend & Flutter Developer — **Finosell**, Lagos, Nigeria

2023 – 2024

Worked on fintech-focused products, building responsive web interfaces and mobile features across React, Next.js, and Flutter.

- Developed responsive fintech dashboards and UI flows
- Built Flutter mobile features for customer-facing products
- Improved UI consistency across web and mobile platforms
- Worked with APIs for transaction and user data handling

Mobile Developer Intern — **Browpay**, Remote

2023

Interned as a mobile developer focused on learning and building Flutter-based applications for fintech workflows and user transactions.

- Learned Flutter mobile development fundamentals
- Built simple UI components and mobile screens
- Worked with basic API integration and Firebase services
- Collaborated with senior developers on mobile features

Frontend Developer Intern — **Pivelar**, Ikeja, Lagos

2022 – 2023

Translated designs into responsive web interfaces and contributed to product development using React and Next.js.

- Built reusable React components and landing pages
- Improved UI responsiveness and layout consistency
- Collaborated with designers on Figma-to-code delivery
- Participated in code reviews and sprint cycles

SELECTED PROJECTS

BMI LMS — Super Admin & School Portal — *Education Management System*

Multi-role learning platform: a super-admin dashboard for oversight across schools and students, plus a school-owner portal for managing staff, students, and branding.

React • Next.js • TypeScript • Tailwind CSS • REST APIs

SkillKonnnect — *Vocational Marketplace*

Marketplace connecting schools with government-approved vocational trainers, with booking, secure escrow payments, and outcome tracking across school, trainer, and regulator roles.

Next.js • React • TypeScript • Tailwind CSS • REST APIs

Araya Web Doctor & Doctor Mobile — *Healthcare Platform*

Doctor-patient platform simplifying appointment booking, consultations, and healthcare access, with a Flutter mobile companion mirroring the web scheduling and profile flows.

React · Next.js · Flutter · Dart · Firebase · Firestore
